Summary

I am a completely self-taught programmer, passionate about learning new technologies. I learned programming fundamentals and syntax through Python. I am an effective team player and have also had experience in leading teams. Problem solving and remaining calm under pressure are two other areas I excel in. All skills I can prove. Actively searching for a junior position in DevOps, front-end development.

Key Technical Skills:

Technologies: HTML5, CSS3, JavaScript (ES5 + ES6).

Frameworks: React, Bootstrap.

Other: JSON, npm, Git.

Projects (all viewable on GitHub)

Quiz Application – A basic quiz application where you can create, save, upload and play different quizzes. Technology used - XMLHttpRequests, JSON, JavaScript, HTML5, Bootstrap

Landing Page – An intended home portfolio for myself. Heavy use of HTML5 and CSS3.

Calculator – A simple calculator. JavaScript, HTML5 and inline styling used.

Mac and Google recreated – Basic recreations of these two popular sites. Shows ability to take a design and create it successfully

A Levels: A, C, C

GCSE's A*, A, A, A, B, B, B, C, C

Additional Information

- I partook in the Mongol Rally 2016. A group of friends and I raised over £5000 for charity and drove to and from Mongolia in small unsuitable hatchbacks.
- I took part in the Monkey Run 2018. This involved raising money for charity, and driving from the western edge of the Sahara and over the Atlas Mountains towards Marrakech on a small child size motorbike.
- Full UK Driving License
